

Joseph Young

youngj98@msu.edu

EDUCATION

Michigan State University Jan. 2022 – Present

Dual Ph.D. in Forestry and Ecology, Evolutionary Biology & Behavior

Committee: Dr. David Rothstein (Chair), Dr. Lars Brudvig, Dr. Andrew Finley, Dr. Amy Trowbridge

Research: Interactions between morphophysiology, climate, productivity, and mortality of jack pine in the Great Lakes.

Oakland University Sep. 2016 – Apr. 2021

B.S. in Environmental Science and Natural Resources

Post-Baccalaureate study in Biology Sep. 2021 – Dec. 2021

RESEARCH EXPERIENCE

Research Assistant Jan. 2022 – Present

Department of Forestry, Michigan State University

Research Coordinator May 2021 – Dec. 2021

Department of Biological Sciences, Oakland University

TEACHING EXPERIENCE

Guest Lecturer – Conservation Biology in Practice (EEB 405) June 2026

School for Environment and Sustainability, University of Michigan

Guest Lecturer – Conservation Biology in Practice (EEB 405) June 2025

School for Environment and Sustainability, University of Michigan

Instructor – Sustainable Wood Products (FOR 414) Jan. 2025 – Apr. 2025

Department of Forestry, Michigan State University

Lab Instructor – Dendrology (FOR 204) Sep. 2024 – Dec. 2024

Department of Forestry, Michigan State University

Teaching Assistant – Forestry Field Studies (FOR 420) May 2023

Department of Forestry, Michigan State University

Teaching Assistant – Forestry Field Studies (FOR 420) May 2022

Department of Forestry, Michigan State University

Teaching Assistant – Organic Farming (BIO 3360) Sep. 2020 – Dec. 2020

Department of Biological Sciences, Oakland University

ADDITIONAL EXPERIENCE AND SERVICE

Oakland University Herbarium Dec. 2022 – Present

Herbarium Manager, Auburn Hills MI

MI Nature Association

Apr. 2022 – Present

Sanctuary Steward – Jack Pine Leatherleaf Bog, Roscommon MI

Sanctuary Steward – Frost Pocket Plant Sanctuary, Johannesburg MI

Kirtland’s Warbler Conservation Committee

Oct. 2021 – Present

Breeding Range Habitat Working Group, Lansing MI

MW CASC Annual Gathering – Planning Committee

Apr. 2024 – Aug. 2024

East Lansing MI

Village of Romeo Tree Board

Mar. 2021 – June 2025

Arborist Consultant, Romeo MI

FUNDING

USFW GLIRI (*Pending, 2026*)

\$336,837 – Two years of funding including Post-Doc

USDA NIFA AFRI (*Pending, 2026*)

\$600,000 – Three years of funding including PI, Post-Doc, and Graduate Students

MW CASC

Sep. 2023

Research Assistantship – One year of stipend consistent with departmental assistantship

MW CASC

Sep. 2022

Research Assistantship – One year of stipend consistent with departmental assistantship

PRESENTATIONS

Kirtland’s Warbler Conservation Team Meeting (*Invited*)

February 2025

Jack Pine Research Working Group: Jack Pine Growth and Mortality Post-KW

MW CASC Annual Gathering (*Contributed*)

August 2024

Managing jack pine under a changing climate: Variable responses of growth, mortality, and their

interactions to different aspects of climate, soil, and water.

Kirtland's Warbler Conservation Team Meeting (*Invited*) August 2024
Jack Pine Research Working Group: Field tour and discussion on jack pine regeneration and revegetation after mastication.

Kirtland's Warbler Conservation Team Meeting (*Invited*) February 2024
Jack Pine Research Working Group: Early revegetation of jack pine harvests under mastication.

MW CASC Science Seminar Series (*Invited*) October 2023
Ecophysiology of Jack Pine: Climate adaptation in the Great Lakes Region.

Kirtland's Warbler Conservation Team Meeting (*Invited*) August 2023
Jack Pine Research Working Group: Early revegetation of jack pine harvests under mastication.

ESA Annual Meeting (*Contributed*) August 2023
Ecophysiology of Jack Pine (*Pinus banksiana*) under climate change: Productivity and mortality in the Great Lakes Region.
